

Statement

This device complies with the essential requirements of the 2014/53/EU Directive. For more information, please refer to the Declaration of Conformity.

Notice of Wireless Radio LAN Usage in The European Community

- At the time of writing this addendum, some countries such as Italy, Greece, Portugal and Spain have not allowed operation of radio devices in the 5Ghz bands, although operation of 2.4Ghz radio devices are allowed. Please check with your local authority to confirm.
- This device is restricted to indoor use when operated in the European Community using channels in the 5.15-5.35 GHz band to reduce the potential for interference.
- This device is a 2.4 GHz wideband transmission system (transceiver), intended for use in all EU member states and EFTA countries, except in France where restrictive use applies. This device may not be used for setting up outdoor radio links in France and in some areas the RF output power may be limited to 10 mW EIR P in the frequency range of 2454 –2483.5 MHz. For detailed information the end-user should contact the national spectrum authority in France.
- This equipment may be operated in AL, AD , BE , BG, DK, DE , FI, FR, GR, GW, IS, IT , HR , LI, LU, MT , MK, MD , MC, NL, NO, AT , OL, PT, RO, SM, SE, RS, SK, ES, CI , HU , CY.
- To remain in conformance with European National spectrum usage regulations, frequency and channel limitations will be applied on the products according to the country where the equipment will be deployed.

Energy-related Product (ErP) Usage Notice

This is a High Network Availability (HiNA) networked equipment, and automatically switches to Network Standby mode within 1 minute of no packets being transmitted. The equipment can also be turned off through a power switch to save energy.

Network Standby: 6.5 watts

Switched Off: 0.07 watts

WEEE for Disposing and Recycling

The symbol on the product or its packaging indicates that according to local laws and regulations this product should not be disposed of in the household waste. The separate collection and recycling of your waste equipment at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment.
